Five Year Terms for Two Auto Thieves

SCHOOL BOARD IS OPENLY ACCUSED OF SECRET WORK

MAYOR ATTACKS MEMBERS FOR ATTEMPT TO CONCEAL PROCEEDINGS.

CHARGES DENIED

Grant Refutes Accusations and Says All Meetings Are Wide Open to Public.

Assailing the board of education for alleged secrecy in its proceedings and failure to furnish a correct statement of where all the money is going, Mayor T. E. Welsh last night delivered one of the most sensational speeches ever heard in the city chamber. His open accusations of a desire of the board to conceal its activities were vigorously denied by C. C. Grant, board member, who said the board is most willing to furnish item expense accounts, that all meetings are open to the public, and that the public is welcome.

Board Hears Charges.

The discussion continued for more than a half hour and was mainly responsible for the unusually long session—the council adjourned at 1:45 o'clock. All but two members of the school board heard the charges of the mayor.

The crux of the matter is that there is only \$2,000 left in the school fund. Close to \$100,000 is needed to pay salaries, coal bills, etc., to Jan. 1. The city is prohibited by statute from bonding to pay current school expenses—it can bond only for permanent improvements, this from the opinion of City Attorney Cunningham. It resolves itself into a serious problem, with no one able to offer a solution.

Conference Is Called.

With a view to arriving at some means of raising the money, councilmen and members of the school board will hold a conference at the city hall at 8 o'clock Friday evening.

Meetings Are Open.

Mr. Grant was chief spokesman for the board.

"Every member of the board renews his remarks," he sternly declared. "We must know that all our meetings are open. The public is welcome. We meet at a fixed time and a fixed place the same as you do. Representatives of the people are not considered interesting enough."

University vs. Normal.

The mayor mentioned that it is the "same old bunk" in paying salaries—that university students are paid more than normal graduates.

JOLIET CONVICTS BACK IN CELLS AS CAUTIOUS MEASURE

Joliet, Ill., July 13.—Construction work on the new prison was stopped today and the gang of 350 convicts employed in the building operations moved to their cells as Warden E. J. Murphy threatened to suspend all convict labor of every kind if the state farm, which is being reached in the state's penal system.

Waterpower on Pike River Dam to Be Developed

Marquette, Wis., July 13.—It is reported that the waterpower on the Pike river near Antigo is to be developed to furnish power for lighting and for running a factory that will locate in the town. It is a granite quarry town and the report that the water power is to be developed has been received with enthusiasm by the community.

Mexican Private Banks Part of National System

Mexico City, July 12.—All private banks in Mexico will be permitted to become integral parts of the national banking system, according to a statement made by Manuel Padua, undersecretary of the treasury, in an interview printed by the newspaper Universal today.

New Ruler of Palestine

Sir Herbert Samuel and wife, photographed on departure from England. Sir Herbert Samuel, the noted English statesman, who has been named the first high commissioner of Palestine, is seen in the photograph.

Council Votes to Hire Sanitary Inspector for Period of Three Months

Will Have Full Power to Enforce State and City Health Laws—Council Gives Full Backing to New Board of Health—Office Fixtures Ordered.

War has been declared. The unsanitary restaurant, the careless butcher and grocer, the cluttered alleys—all must go.

SUFFRAGE CASE IS DISMISSED

Proceedings Brought by Fairchilds Ruled Out of Court.

Washington, July 13.—Justice Bailey in the district supreme court today dismissed proceedings brought by Charles Fairchild, a New York resident, to prevent the promulgation of the ratification of the suffrage amendment and to test the validity of the equal suffrage law.

Tipperary Fight Is Fatal To Organizer of Police

Belfast, July 12.—Lieut. John Stokes, who was discharged three weeks ago from the British army and appointed to organize the police force of Tipperary in Ireland, was killed during an attack on the Newport barracks, in county Tipperary today.

Keep Informed

If there's a chance to buy an automobile, you will learn of this opportunity by watching the classified page of the GAZETTE. If you need a helper in home or office, and the person fitted to serve you is available, you'll hear of it through the classifieds. If there's a business opening for you in the business world—a furnished room to be had to your liking—a used auto to be had at a bargain—a chance to trade a lot for a car—or an opportunity to fill all or any want or desire—you may keep informed as to how and where to fill this want or desire by watching the GAZETTE classifieds daily.

Justice Winslow Is Dead

Madison, July 13.—Chief Justice John B. Winslow, of the Wisconsin supreme court, died this afternoon. He has been chief justice since May 4, 1891.

CHAUFFEUR KILLS WOMAN AND SELF

Two Deaths Occur As Result of Shooting Tragedy in East.

New London, Conn., July 13.—Bernard B. Geisler, a chauffeur who is alleged to have shot and killed Mrs. Arthur B. De Cordova, New York City, while automobiling with her in North Stonington yesterday and then shot himself, died today at a hospital here for immediate attention.

HUSBAND RUSHES TO TRAGEDY

New York, N.Y., July 13.—Arthur De Cordova, New York broker, whose wife was killed yesterday by their chauffeur near New London, left the city for Connecticut on learning of the tragedy.

HOW TO GET COAL TO NORTHWEST IS BEING DISCUSSED IN EAST

Washington, July 13.—Although those participating expressed little hope that a satisfactory plan would be worked out by tomorrow when the operators will confer in New York with railway executives, bituminous coal operators are discussing methods of supplying the northwest with coal for the coming winter.

Board Members Present

Action on the two matters was taken at the request of the board of health, all of whose members were present at the council meeting—H. H. Bliss, president; Joseph M. Connors, vice president; Harry Garbutt, secretary; and Dr. Fred B. Welch, health officer. Mr. Bliss acted as spokesman.

May Issue Ultimatum

The sanitary inspector will have full police powers, Mr. Bliss explained. He will be charged with enforcement of all state and city health laws, and may give orders to "clean up or close the place." George Traver said he voted "No" because he thinks the regular policeman can enforce these health laws.

Cox and Roosevelt to See Wilson at White House

Washington, July 13.—Gov. James M. Cox and Frank B. Rowlett, the democratic candidates for president and vice president will confer with President Wilson Sunday at the White House.

Every Sort of Hay Grown Displayed at Convention

Cincinnati, July 13.—Members of the National Hay association numbering 1,500 delegates, opened a three-day convention here today and brought with them a display of every sort of hay grown in the United States.

Hotel Keepers Fined for Selling Unlicensed Liquor

Minnetonka, Wis., July 13.—Five keepers of local saloons, who were refused a license to sell beverages of less than one-half of one percent alcohol, were fined \$50 and costs for operating their places without the necessary permit. Three of those fined conducted a twenty-day war against the permit to sell malt beverages.

Took Says, "It Was Easy"

David Took, 632 Eastern Ave., Janesville, is the first boy to go over the top in the Gazette's Cottage Camp contest. He started work last Saturday and finished by Tuesday noon.

South Carolina Bishop Has Audience With Pope

Rome, July 12.—The Right Rev. Wm. T. Russell, bishop of the diocese of Charleston, S. C., was received in audience by the pope today.

RAIL CONFERENCE WILL SUBMIT PLAN TO BETTER SERVICE

COMMITTEE TO FORMULATE DEFINITE DEMAND ON RAILROAD COMPANIES.

UNITY OF ACTION

Representatives of Many Places Bound to Have Change in Passenger Service.

Concerted and direct action for faster passenger train service between Janesville and other Southern Wisconsin cities and Milwaukee grew out of the meeting of 16 representatives of nearby business organizations at the Grand hotel here yesterday afternoon. It took shape in the appointment of a committee of three to formulate, definitely the demands of the past 40 years for better service on both the Chicago & North-western and Milwaukee roads and to present these when completed to the heads of the companies with an ultimatum for immediate action.

Take Immediate Steps.

D. E. Mowry, manager of the Madison Chamber of Commerce, was named chairman of the committee with the others Roger Cunningham, Janesville city attorney, and J. G. Swift, city clerk of Burlington on the Mineral Point division. Instructions were given to the committee to take instant steps to draw up its plans and present them.

In the event that the railroads refuse or are disinclined to relieve the situation they were warned through their representatives present: W. W. Winton for the Milwaukee system, and A. W. Bower for the Northwestern. The committee will be petitioned and pressed to the limit. The attitude of the gathering was that the so-called antiquated train service will not be tolerated longer. The presence of the railroads officials at the conference, and the fact that this was the first time the roads thought it important enough to have their men on hand, gave the impression that the roads are alive to the situation and the public to fight for improvement.

Faster Train Service

A two and a half hour passenger only service between Janesville and Milwaukee, with trains well appointed and equipped, will probably be the shape of the claim upon the roads by the committee. A train leaving here at 8 a. m. and arriving in Milwaukee at 10:30 and a train leaving Milwaukee at 6 o'clock in the evening and reaching here at 8:30 appeared from the discussion to be the most desirable. Such a train was pointed out would permit the business men along the line to get into the state metropolis in time to transact their business and return at a good hour and still leave a large part of the evening for social affairs at home.

The Unanswered Facts

To all arguments of the two railroad men that it is impossible to have a faster service, the committee was constantly pointed out that if trains can be run on Chicago, and that the roads thought it important enough to have their men on hand, gave the impression that the roads are alive to the situation and the public to fight for improvement.

Milk or Passengers

This milk question appeared to be the hornet in the nest of contention. At first Stephen Boiles, editor of the Gazette, chairman of the meeting, in stating that the passenger service is subordinated for milk. He told of one instance where a train waited for milk to be brought to it. "The rule is that all trains from here," he continued, "are late in arriving."

PHILIPP ANNOUNCES 4 REAPPOINTMENTS

Madison, July 13.—Governor Philipp today announced the following appointments: Herman Grothophorst, Baraboo, member of the state board of education, for the term ending August 1, 1925.

PHILIPP ANNOUNCES 4 REAPPOINTMENTS

Madison, July 13.—Governor Philipp today announced the following appointments: Herman Grothophorst, Baraboo, member of the state board of education, for the term ending August 1, 1925.

Children Refugees to Be Taken Care of by Reds

Warsaw, July 13.—Although American relief workers have been forced to flee from cities and towns near the battle lines, where Russian bolshevik and Polish forces are engaged in battle over a wide front, the children who had been aided will not be permitted to suffer, according to advice received by American relief officials here. The work of providing for the destitute has been taken up by bolshevik organizations in areas wrested from the Poles by the advancing soviet armies.

Boys, 17 and 18, Took Car Here Planning to Go to Harvest Fields

Beloit and Ladysmith Youths Toughest Pair to Appear in Court Here in Long Time—One Carried Revolver.

Two young automobile thieves drew five-year sentences in the Green Bay reformatory from Judge Maxfield this morning.

This was step number two in the effort to make Janesville and Rock county an unhealthy place for auto thieves. Ten days ago Judge Maxfield sentenced two thieves to three years in Waupun.

In court today appeared Billy Kurth, 18, hailing from Beloit and Eddie Neisius, 17, Ladysmith, Wis., as tough a pair of youngsters as have been seen in prisoners' row for a long time. They were charged with having stolen the machine of Edward Engen, Orderville, from South High street, Janesville, Saturday night.

Famous Beauty

On the way north their stolen auto ripped the wheel of another machine and the thieves lost one. This was two miles north of Evansville on the Madison road. Chief Fred Gilman arrested them.

When examined Kurth was found to have a loaded .32 revolver and 22 cartridges. He told the Evansville chief that he was ready to use the gun on either man or beast if he got in his way. In fact he was a thoroughly bad man all through and admitted it. Neisius was less hardened but the court after questioning him concluded that a term in Green Bay would be good for any community.

Blame One Another.

Each blamed the other for the origin of the idea to take the car. Neisius said he proposed that they go west for high wages in the harvest fields, riding on the automobile. Kurth, up to Saturday both were employed by a local building firm. He further alleged that Kurth got the idea of stealing an automobile and driving west. Kurth then blamed Neisius.

Is Still Sentenced.

Aside from the sentence of five years in Green Bay the pair will have even a harder time than the two who were sentenced to three years in Waupun by Judge Maxfield two weeks ago. While the prison stigma results from Waupun nevertheless this is a better place to go than Green Bay. The Evansville chief said the boys are restrained by a code of rules as strict as the strictest of any prison in the country. Prisoners there cannot see or hear of the outside world and there are such and many more privileges.

PHILIPP DENIES HE CALLS CONFERENCE TO ENDORSE HIS TERM

Madison, July 13.—Gov. Philipp claimed today as a falsehood the statement that the conservative conference which is to meet in Madison, Wednesday, is a plan for endorsing his term for a fourth term. Gov. Philipp said:

"The story is a falsehood. I am not seeking a fourth term as governor and I have no reason to close my eyes to the fact that the republicans are circulating a story to the effect that the republican conference will endorse me for a fourth term."

Guerra Government Overthrown, President Is Made Prisoner.

Lima, Peru, July 13.—A revolution broke out in Peru today according to dispatches received late today from La Paz.

REVOLT BREAKS OUT IN BOLIVIA

The government headed by President Guerra has been overthrown and the president and members of his cabinet have been made prisoners.

48ERS VOTE TO JOIN LABOR PARTY IN POLITICAL MOVE

AMALGAMATION OF PRINCIPAL GROUPS IS EFFECTED IN CHICAGO. WILL NOMINATE

Demonstrations Occur in Convention in Favor of La Follette.

(By Associated Press.)

Chicago, July 13.—Amalgamation of the principal groups attempting to form a new party was effected here today and the committee of 48 voted to join the national labor party. A large Non-Partisan league group and a delegation of single taxers marched into the labor convention and announced they had decided to amalgamate.

On motion of Max S. Hayes, Cleveland, chairman of the labor party's national committee, the nomination of presidential candidates of the "united new party" was made a special order of business for 8:30 o'clock tonight.

The committee of 48 delegates voted to amalgamate before they had heard the report of the conference committee on the stumbling blocks to the proposed union. These points were the Plumb plan and imposition of a capital tax.

For General Public Ownership.

During its separate session the committee of 48 voted to recommend a platform plank for "public ownership of the means of production, transportation, including stock yards, large abattoirs, grain elevators, terminal, warehouses, pipe lines and canals. The democratic control" by workers and their representatives, was a labor demand.

Harry Neuberger, New York, discussing this plank in the 48 session, said:

"We may not be able to grab the entire earth in that time, but we can take a step in that direction."

With the 48 convention on record as agreeing to amalgamate this afternoon, the labor party conference with Non-Partisan league and some single taxers officially participating, went ahead hearing reports for a short time and then adjourned until after tomorrow to hold the first joint meeting with the forty-eights.

Before adjourning the labor party session indicated that the new party, with Non-Partisan league and some single taxers officially participating, went ahead hearing reports for a short time and then adjourned until after tomorrow to hold the first joint meeting with the forty-eights.

George L. Record, Dudley Field Malone, and C. J. Francis of Washington, took the platform before the convention and Mr. Record explained the differences.

"We feel that Senator La Follette might not agree to run as our candidate if these things were all accepted," Record said. "He's not, he is and 'this is no time to talk about candidates' interrupted him. Then there was a counter demonstration in favor of the plan for La Follette to read off some of the planks agreed to by the forty-eights and the labor party men. The convention held a jubilee when the plan for La Follette was read off. It included planks declaring for recognition by the United States of Russian and Irish governments; and carried its demonstration further by a plan for declaring for a referendum before war "except after an act of actual invasion."

Another agreement plank advocated "refugees to go to work with Mexico, at the behest of Wall Street" and a proposal for "Americanization of the federal courts by electing federal judges for 4 years subject to recall."

Tax Big Fortunes.

When Record read the capital tax plank of the new party, he was vying for "graduated taxation on fortunes over \$25,000" there was a round of applause. There was laughter when he said that the forty-eighters would "go to work with Mexico, at the behest of Wall Street" and a proposal for "Americanization of the federal courts by electing federal judges for 4 years subject to recall."

PARIS WONDERS IF DESCHANEL WILL BE ABLE TO DO WORK

Paris, July 13.—President Deschanel's health, concerning which the newspapers have been silent since the main topics of Parisian conversation and comment in the press, there is a divergence of opinion, some of the newspapers today, pressing the belief that the president, although in poor health, is on the road to fairly early recovery, while other journals declare that Deschanel's condition will incapacitate him from discharging the duties of his office for some time.

Reputed reports that President Deschanel will resign and another president elected are printed with expressed regret with the names of high political figures who might be expected to succeed M. Deschanel.

Several deputies who visited the president Sunday declared after seeing him that Deschanel could not be expected to do more than a few weeks rest would assure his recovery.

Permanent Commissions to Be Given in Marine Corps

Chicago, July 13.—Major General Leighton H. Smith, commanding announced today there would be convened at marine headquarters here on Thursday a board of officers to select permanent commissions in the corps. Congress recently authorized an increase in the strength of the corps from 17,000 to 27,000 men creating a large number of vacancies in the commissioned personnel.

Cities of East and West Near Population Reports

Washington, July 13.—Census figures announced today are as follows: North Adams, Mass., 22,232, increase 263 or 1.3 percent. Provo, Utah, 10,300, increase 1,378 or 13.4 percent.

OPEN STAIRWAYS MAY BE BANISHED

Building Code Calls for Covering or Elimination of Those in Downtown.

Attention of the council was called by Building Inspector F. J. Blair last night to that section of the building ordinance which provides for covering or elimination of outside stairways leading to businesses of buildings in the downtown district, when they open onto sidewalks. It appeared to be the consensus of opinion that the section should be rigidly enforced, especially where such stairways are on city property.

Mr. Blair said that a survey was made of such stairways, 9 of which are on city property, as follows: L. M. Wiegman, 301 West Milwaukee; S. D. Grubb, 200 West Milwaukee; Carl West Side, 201 West Milwaukee; Michael Hayes estate, 200 West Milwaukee; Mrs. H. A. Capelle, 124 West Milwaukee; Gazette Building, 200 East Milwaukee; E. Fredendall, 39 South Main; and Masonic Temple, 49 South Main.

LICENSES ISSUED FOR 18 TAXICABS; NONE FOR 'YELLOW'

Licenses were issued by the council last night to 18 taxi drivers and to owners of 18 taxicabs. Each driver's license was accompanied by \$10, and for each taxi, by \$25. A man owning and driving his own cab pays \$35 per year.

Notable among the facts that the Yellow Cab & Transfer company did not apply for licenses on the new scale. What action this firm will take is a question. Edward Blackford, who paid \$2 to drive a yellow cab, has asked return of it.

Driver's licenses at \$10 each were issued as follows: Edwin Watson, Gilbert Yalin, Palmer Atcheson, C. F. Matthews, George McCarthy, Walter Bidwell, G. L. Cassell, Eugene Bugge, Curtis Eklund, Joe Theobald, Paul Bugge, George Mortensen, George Plakas, R. E. Mathias, Henry Robbins, W. E. Gower, William Connors, Luther Mortensen, and Burt Stang.

The following secured licenses for cabs at \$25 apiece: Gilbert Yalin, C. F. Mathias, Walter Bidwell, G. L. Cassell, Eugene Bugge, Curtis Eklund, Joe Theobald, Paul Bugge, George Mortensen, George Plakas, R. E. Mathias, Henry Robbins, W. E. Gower, William Connors, and Burt Stang.

Electrical contractors' licenses went to Bandt Electric, Electrical Construction Company, and Wisconsin Electrical Sales company.

The application of M. Goldfish, 60 South River street, for license to pick up and sell junk was laid on the table at request of Alderman Dullin after a long discussion.

Man Drowned, Warned by Children of Deep Water. Jefferson, Wis. July 13—Frank J. Gehly, 37, St. Lawrence, was drowned while bathing in the Crawfish river. Gehly was unable to swim, and he failed to heed warnings of children swimmers not to go out to far.

Harding Is Winner on First Showing in Electoral Vote

David Lawrence Analyzes Situation as it Now Seems to Appear with Harding Carrying the East and the Fight Confined to Western States.

BY DAVID LAWRENCE. Chicago, Ill., July 13—Many things happen twice now and election day. But if the polls in the presidential contest were to be closed tomorrow certain other things would surely happen—such as, for instance, the election of Warren Harding, republican, as president of the United States. And if the third party movement developed even the minimum strength expected of it—namely, the carrying of Minnesota, Wisconsin and North Dakota—Governor James Cox, of Ohio, democrat, may be the happy beneficiary and president of the United States.

Cox Had the West. However insignificant the third party may appear to eastern eyes; however much it may be derided as socialistic, ultra-radical and Hearst-made, the fact is it does menace victory more than it does defeat. For the democrats who nominated Cox of Ohio deliberately forfeited the west and chose to make their battleground in the west. Governor Cox may invade the west successfully but based on things as they are today, he has less than an even chance of carrying any western state except California and Montana.

It is perhaps early to make definite forecasts, but there is nevertheless, a fixed opinion in the mind of a delegate from the west, the chances of his own party in his state are today. After canvassing numerous delegates at both Chicago and San Francisco, asking them not to attempt to say definitely how their states were going but merely what they believed their own chances to be, the writer deduced from their answers that republican opinion, a table in which the electoral vote would seem to be tending in a direction something like this:

State	Cox	Harding
Alabama	13	3
Arizona	3	3
Arkansas	9	3
California	12	6
Colorado	6	3
Connecticut	7	3
Delaware	3	3
Florida	6	3
Georgia	14	3
Idaho	4	3
Illinois	29	13
Indiana	15	13
Iowa	13	13
Kansas	13	13
Kentucky	13	13
Louisiana	10	6
Maine	3	3
Maryland	8	13
Massachusetts	13	13
Michigan	13	13
Minnesota	10	13
Mississippi	10	13
Missouri	18	13
Montana	4	3
Nebraska	13	13
Nevada	4	3
New Hampshire	4	3
New Jersey	14	3
New Mexico	4	3
New York	45	13
North Carolina	12	6
North Dakota	24	6
Ohio	24	6
Oklahoma	10	6
Oregon	6	3
Pennsylvania	23	13
Rhode Island	6	3
South Carolina	9	6
South Dakota	13	13
Tennessee	20	13
Texas	20	13
Utah	4	3
Vermont	4	3
Virginia	12	7
Washington	8	13
West Virginia	13	13
Wisconsin	13	13
Wyoming	3	3
Totals	254	277

Necessary to election—268. In compiling the foregoing table, no effort was made to consider any of the so-called states as electoral votes. It is the feeling of the writer that the election was held tomorrow, he apt to have better than an even chance of carrying the states either because of his own inclinations or as in Ohio because of his record as governor.

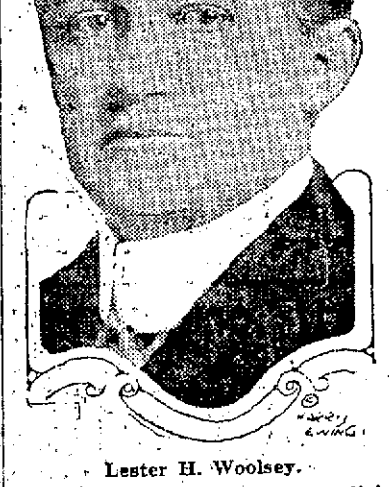

Similarly New York and all the New England states as well as Illinois and the majority of the middle western states are placed for the moment in the republican column because of the feeling of the writer that tomorrow, he apt to have better than an even chance of carrying the states either because of his own inclinations or as in Ohio because of his record as governor.

THIS PLAIN LITTLE HOUSE MAY BECOME FAMOUS AS BIRTHPLACE OF PRESIDENT. This house, still standing in the village of Blooming Grove, Morrow county, Ohio, just north of Mt. Gilead, is where Senator Warren G. Harding was born on November 2, 1895.

Should the senator, named as the presidential candidate of the Republican party, win in the election, this house will take its place with other historic structures. Citizens of Morrow county are said to be planning to obtain an option on the house and restore it to its original condition if Harding wins.

DEPARTMENT AIDE OF LANSING JOINS HIM IN BUSINESS

Lester H. Woolsey, former solicitor of the department of state, has resigned to engage in the practice of law and international matters with Robert Lansing, former secretary of state.

Lester H. Woolsey, former solicitor of the department of state, has resigned to engage in the practice of law and international matters with Robert Lansing, former secretary of state.

DIRECT ACTION FOR BETTER TRAINS TAKEN AT MEETING HERE

(Continued from Page 1.) Living at Milwaukee. A canvass of 20 people in Janesville making constant use of the trains showed that three who knew of occasions when the trains were on time.

Better Service in 1905. Fifteen years ago, it was brought out by people from Janesville much faster than now. Trains operated from a half hour to an hour quicker. Two trains were operated there when there is only one. One of them was a milk train; the other for passengers only. This precipitated a query as to why it was not faster now.

Conditions are much changed now to what they were then, snapped by J. J. Dullin, who is now in charge of the "Samson Tractor Co. Let's try it anyway."

Would the Train Pay? But Mr. Winton showed awareness by remarking that if a through train were put on between Janesville and Milwaukee, not stopping for milk, and in the absence of refusal by the government, that locomotive power is short and is hardly enough to handle the present amount of freight.

Mineral Point Service. J. G. Swift, city clerk, Darlington: "The passenger service on the Mineral Point line needs one additional train each way. It is impossible to get out of town and back the same day. It is impossible for us to receive and reply to correspondence on the same day. The Mineral Point division has the poorest service in Wisconsin."

Don't Go to Milwaukee. W. S. Ferrigno, vice-chairman transportation department, Beloit Chamber of Commerce: "Beloit has been so poorly treated by the railroads that we have ignored Milwaukee and gone to Chicago. Our business men will assist greatly in this matter."

Samson Is Interested. J. E. Houck, traffic manager, Samson Tractor Co.: "Our firm will have more travel to Waukesha because of the new train. The Milwaukee road is slow and jerky. The roads have not their schedules worked out so that the train is late. We used to have a much better train service between Milwaukee and Madison than we have now. We are not able to take care of the people who come to Madison. We are crowded to death, rooms must be used in private homes, because people cannot come to the capital on the same day."

Local View of the Janesville Plan

By J. A. Mahrose of the Federated Church in "The Continent," leading Presbyterian publication.

As pastor of the federated church in Janesville, Wis., which was organized in 1913, I have been asked to make a statement on the matter of the Janesville plan. I have been asked to make a statement on the matter of the Janesville plan. I have been asked to make a statement on the matter of the Janesville plan.

The plan suggested a federated effort of the churches and mid-week schools of the churches were to be held at the congregational church with Presbyterian minister as pastor. The arrangement judged by its results. A committee on organization was to take the place of the federated effort.

Now, it should be remembered that the committee on organization (the federated effort) was charged by the plan to protect the official integrity of both churches. This committee had no right to make any adjustments. The federated committee charged with the adjustments between the churches offered the following plan for the trial, which was adopted by the plan for ten months, closing July 1, 1919; that at that time each congregation declared

Samson Wants to Close 7 Streets. Petition for Vacation of Thoroughfares Running Through Plant Property. Petitions of the General Motors corporation to vacate six streets on the Samson Tractor company's property in Spring Brook and a portion of a street running through the plant property in Janesville.

Majority of University Students Go to Church. According to a questionnaire taken at the University of Chicago, which has had some attention focused on it in the past from a religious standpoint, nine out of ten students go to church. The questionnaire taken this spring, covered 2,065 students.

SCHOOL JANITORS GET WAGE BOOSTS

New Salaries Range From \$75 to \$140—\$3,800 in Schools Fund.

Salary increases were granted in many cases at the monthly meeting of the school board in the high school last night. John McCue was given the title, origin of the high school, with general supervision of the building and grounds, and a night assistant. He was granted an increase of \$15 per month. He will now receive \$140 and his day assistant will get \$120 as will the night man.

Carl Meyer, Adams, was allowed \$10 per month more. This will make his salary for the coming year \$115. "The Janitor," Douglas, will receive \$105; John Byren, Garfield, \$100; R. W. Bergman, Grant, \$100; Roby Klossner, Jackson, \$100; Geo. Ber-Kloemer, Jefferson, \$175 with the understanding that he will hire his own assistant; Ed. Viney, Washington, \$100; W. L. Donnelly, Webster, \$100. To Educators Schools.

Joseph Smith, chairman of the buildings committee, reported that the progress that had been made in the redecoration of the buildings and recommended the Webster, Grant, Jackson, Jefferson, Adams, and high school. It was also reported that none of the local dealers is willing to bid on coal for the winter supply.

S. J. Smith, chairman of the teachers' committee, reported that there are now but two vacancies on the high school staff and one on the grade school. The playground committee expressed its satisfaction for the way in which the playgrounds have been supervised and attended. "They are all we could wish them to be."

Because the attorney's opinion concerning the legality of a \$100,000 bond issue for the running expenses of the school, various matters of this nature were discussed. The treasurer reports a balance of but \$33,404.77.

Miss Alice Glenn, the school nurse, appeared last night to secure scales for all the school buildings. She stated that there is now but one scale in the school and that the one in the high school was referred to the buildings committee to be reported on at the next meeting.

MORE WATER MAINS ARE ORDERED LAID HERE THIS SUMMER

Six additions to the 1920 water mains program were made by the council last night with the adoption of the recommendations of the public works committee. Mains will be laid as follows:

East—12-inch main to point 132 feet south of Third. Josephine—Ringold to Fremont.

Washington—Chestnut to High.

6-Inch Mains
St. Mary's—Cornelia to Thomas.

Thomas—St. Mary's to point 77 feet north of Blaine avenue.

The resolution, offered by Ald. E. F. Kelly, was passed unanimously.

EDGERTON'S MOTOR COP IS MARRIED

Edgerton, July 13.—Stanley Popowski was married Monday afternoon at Waukegan, Ill., to Miss Florence Avery, Crookston, Minn. Mr. Popowski and his bride and his mother, John and his family, Miss Lillian Pells, of this city will motor to New York City on a fortnight's trip. On their return they will take their home in this city until fall, after which they will go to Denver for the winter.

The groom has held the position of motorcycle policeman here and at Stoughton since spring, coming here from Racine.

Mrs. E. O. Tieman who has just come to the city from Janesville, severely burned her arms by an explosion of gasoline yesterday. Mrs. Tieman has bought two tons of coal, the corner of East Tilton and Main streets and will operate it as a business venture.

Charlie Fenske and family spent Sunday in Madison with friends and enjoyed a picnic outing.

Mrs. William Flarity was a Janesville visitor Monday afternoon. She is one of the solicitors for funds for the proposed memorial hospital to be built in this city and reports great success in obtaining subscriptions to the enterprise.

Miss Beth Hopburn has as her guests, the Misses Jane and Agnes Maxwell, Anna Marie, Milwaukee, and Miss Janet Blair, Janesville.

Mrs. George Underhill and Mrs. Oscar Jensen are entertaining Mrs. George Foster.

Walter Abbott, president of the chamber of commerce, and George Blanchard, city attorney, attended the meeting of representatives of cities affected by the poor train service held in Janesville, Monday.

Mrs. Gilbert Hansen is visiting at the home of her grandmother, Mrs. Elmer Haycock, Fulton.

At the annual district school board convention and teachers' meeting held in the home of Mrs. E. O. Holt of this city will speak on the subject, "A good education for a country child."

The Misses Ruth, Ellen, Martin, Josephine, McIntyre, Avilla, Mankie, Ada Davis, and Gladys Anderson spent the weekend at the home of Mrs. James Menhall.

Miss Lois Tyler, Walworth, is at the home of her grandmother, Mrs. Dell Davis.

The Gumble Brothers, extensive stock feeders, shipped a car of hogs and two cars of fat stock to Glen last week and received a check for same of nearly \$12,000.

Mrs. Doll Clark, Beloit, and formerly a neighbor and friend of the late Jens Lund, attended his funeral last week.

T. B. Earle and W. G. Atwell are having material delivered to the farm lately bought by them for the erection of 420 feet of tobacco sheds. They have a 25 acre tract of corn and soybean land.

Max Volgt went to Bloomington, Ill., this morning to visit relatives.

The Service Star Legion will meet at the library at 8 o'clock Wednesday evening. As there are several committees to report a full attendance is requested.

SHINE STANDS MUST GO WITHIN 3 MONTHS

Proprietors of the shine stands on sidewalks in the downtown district have until October 12 to move them. The time for their elimination was extended three months by the council last night after difficult negotiations. The council will enforce the resolution had been explained.

"OUR MARY" GREETED SUZANNE IN TRUE PARISIAN FASHION

Douglas Fairbanks, Mary Pickford and Suzanne Lenglen.

Mrs. Douglas Fairbanks (nee Mary Pickford) greeted Suzanne Lenglen, the French woman tennis champion, in true Parisian fashion when they met at Wimbledon, England. The Fairbanks were given such an enthusiastic reception upon their arrival in England that "Doug" had to pick up Mary and carry her off to prevent her being crushed by the crowd seeking to greet her.

Council Sidelights

Rebate to Wemple.

The city treasurer was instructed to pay \$10.44 to E. Wemple as a rebate on tax on motorcar. It was shown that he had moved to Madison and is now a resident of that city; that his machine was taxed there and also in Janesville.

Dulm to Investigate.

"It's a horrid old sidewalk and ought to be fixed." So goes the anonymous letter of a Fifth ward housewife, which was referred to investigation. She has reference to a sidewalk on Lin street, which she says she is obliged to "stumble over daily to go to her work receiving wages to help pay heavy taxes." The sidewalk from the Fifth promised to see it through.

To Oil Academy Street.

Upon petition of property owners, Academy street, from Holmes to North, was ordered treated with oil, the cost to be charged up to those benefited.

37 Fire Alarms.

The quarterly report of Fire Chief Con J. Murphy was received and placed on file. For the three months ending June 30, it shows 37 calls answered—15 box alarms, 5 false, 22 "stills," and 2 for the lungmote. The damage was about \$2,000, he reports, all covered by insurance.

Street Light Ordered.

Installation of electric light at the intersection of Prairie and Sherman avenues, was ordered upon recommendation of Ald. Edwin Banger, head of the lighting committee.

Phone Bill Disallowed.

The bill of the Wisconsin Telephone company, for \$23.25 was disallowed. The bill was for service rendered to the city of Janesville, under contract with the city. The bill was for service rendered to the city of Janesville, under contract with the city.

They Like Parkway.

Asking that the flower bed in the middle of Center avenue, now being made ready for asphalt paving, be extended to the corner of Center and School street, was the substance of the petition presented by four property owners. Alderman Dulm said he would like to see it done, but as all assessments have been paid and the contract

CITY WILL HAVE REPRESENTATION AT RAIL HEARING

City Attorney Roger G. Cunningham will go to Madison tomorrow to represent Janesville in the hearings of the Rockford & Interurban, and Janesville Traction companies, for increased fares. He will go with instructions "to use his own judgment," not necessarily to enter a protest in this accordance with action of the council last night.

Ald. W. J. Hill wanted him to make a strong protest, but Ald. J. J. Dulm argued that he should use his own judgment. The latter believes these utilities should not be denied the privilege of boosting rates when it is considered that the gas company raised its rates.

"We allowed the gas company's petition, hook and all," said Mr. Dulm. "My gas bill last month was \$2.10. I don't know what should be done about it—a man from the railroad commission ought to come down here and investigate."

"I'll accept Alderman Dulm's amendment," said Mr. Hill. "We'll get hooked anyway."

Germans Seek Revenge For Mistreatment of Women

President The German Students congress here adopted resolutions threatening the French with a treaty of revenge for the treatment German women are alleged to have received since the occupation of German territory by the French. This resolution was directed against the influx of Russian and Galician Jews.

At least two members of the murder gang named by Frank in his dying statement as "Frank" and "Nunzio" are still at large. "Frank" is declared by detective Toward to be Frank Peters, alias Di Leonardo, who lived at Grand hotel, Beloit. "Nunzio" is said by the detective to be Nunzio Di Giovanni, alias, others, killed with a single shot and being inflicted on the struggling man many see the vengeance of the Mafia. On the other hand, leading in the police grand jury which they were engaged in held by as many more to have been the motive.

Police of a score of middle-western cities are pressing search for the two missing members of the death gang today.

Boys and Girls Growing Gardens

By Prof. Allen B. West

It had been a rainy day so that the Agricultural Instructor could not teach but for his usual work with the boys and girls who are carrying on practice work on farms and raising gardens in the city. He had spent the day in making up reports of his work for the Federal and State department and in other collecting work. He was a little blue for he was missing the interesting contact with the boys and girls who are agriculturally inclined and with their parents who are always so sympathetic. He had some problems that he been on his mind since he had had a trip to the south west of Janesville. Here he had found some that ought to be in the high school next year but find it very difficult to get back and forth every day and the cost of board at the present time seemed to them and to their parents prohibitive. With these thoughts in his mind he went down to the Gazette office the noon of so many boys and girls. The Agricultural Instructor is glad that he went for he found in Mr. Bliss a sympathetic listener. He would give these boys work after school at night and they could stay in town nights and save the ride of 2 or 3 miles every morning and every night. There's boys out on the farm can come into Janesville for the week and have the same opportunity that the city cousins. The Agricultural Instructor has known that the Gazette has always been willing and anxious to help the boys and girls of Rock County. He remembers how years ago the Gazette organized and fostered the Acro Corn Contest and how it had a part in making later efforts to help the youth of our city and county to be industriously employed.

The instructor was not surprised when Mr. Bliss made the offer to employ these boys from the farm so that they could have the privileges of a good high school. He would also assure them that there were others who would like to hire these boys and suggested that the Gazette would open as an employment agency for boys. Here is a high school, then within the reach of every rural school graduate in which he can study the academic branches and the work in Agriculture and Manual Training. Now there are boys within a radius of ten miles of Janesville who for good reasons do not go to school. Here is a high school, then within the reach of every rural school graduate in which he can study the academic branches and the work in Agriculture and Manual Training. Heart and Home Problems

BY ELIZABETH THOMPSON
 (Mrs. Thompson, in Care of the Gazette)

Dear Mrs. Thompson: I am 20 years old and the youngest of three children. My father never got on with my mother. My father is all right, but married and has children. Therefore I am the only one to be a comfort to mother.

Mother has sewed a great deal so that she could give me an education. She realized that I was musical and she wanted me to have every possible advantage that she could afford. After studying here she sent me to town. Now I learn music lessons. I have met the only man in the world that I could possibly love. He had great ambitions, too, and she had decided not to marry. I made up my mind he was going to become a doctor in his line of work by doing from all angles. When he masters certain pieces of music he changes his position and goes somewhere else, even if it takes him out of town. His aim is not to make money, but to become a doctor. In his last position he has received a series of raises so that now he is well able to marry. He says he wants a home and me and that I must give up my career.

Mother's heart will be broken if we marry. She begs me not to do it and says she will have nothing left to live for if I do. She has done so much for me that it breaks my heart to act against her wishes, but I do want a home of my own.

Do you think I should give up music and go to work? I do not want to shirk my duty. My fiancé says that he will help me in my duty. He says that I can continue to study music and he will gladly help mother in a financial way.

I believe that you should say: To justice yours truly for your mother would not bring her happiness and it would spoil your life. The argument seems to me to be all on the side of marriage. Your husband will be able to give you a better chance to improve yourself than you could earn through your own efforts, and besides you would not have the worry of making a livelihood for yourself and mother.

When the marriage is over and you are settled in your home she will become reconciled to the situation and will probably realize that she was selfish in making such a demand.

Dear Mrs. Thompson: I am a divorced woman of 23 and have a little girl two years old. I have to support myself and child and so I took a position as housekeeper in the home of a widower. He is 35 years old and has three boys.

Several months ago I met a young man of 20 and after short time I fell in love with him. We see a great deal of each other, but he never speaks of marriage.

My employer is very jealous of me. He would like to marry me himself, but I hate him and would never consider such a thing. He has told me that I must either give up my friend or find another position.

I don't want to give up my friend and I am afraid to give up my position because it is a good place to bring up my little girl. What do you think I ought to do?

DISTRESSED.

I think you ought to find another position. It is so difficult to get housekeepers these days that people are very glad to get them whether they have children or not.

It is quite out of the question for you to remain where you are since your employer wants to marry you and you do not and never can love him. Keep your friend and get work elsewhere. Do not think too much about love because the young man is not old enough to consider such a thing.

PLOMATS IN WASHINGTON HAVE U. S. WIVES

Left to right, above: Mme. Ekengren, Baroness Avezzano and Baroness de Marchienne. Below: Senora de Gama, Senora Riano and Mme. Jusseland.

ican wives. Among the ministers and ambassadors with American wives at the U. S. capital are M. Jusseland, ambassador from France; Baron Avezzano, ambassador from Italy; Baron de Marchienne, ambassador from Belgium; Senora Riano, ambassador from Spain; W. A. F. Ekengren, minister from Sweden; and Senora de Gama, ambassador from Brazil.

CAPTIOUS CRITICISM

"What's the trouble?" said the editor of the Toadvine Clarion. "One of our prominent suffragists has been in here giving me 'Hall Columbia' for spelling the Cause with a lower case 'c'."

Prostrated.

"Well, did that prescription I gave you straighten you out?" "It certainly did, doctor."

"Pine!"

"I was flat on my back for a week." —Birmingham Age-Herald.

Harmonious Episode.

"Did you notice any unanimity of sentiment during the earlier sessions of the convention?" "On one point only," answered Senator Borah. "Everybody stood up when the band played 'The Star Spangled Banner.'" —Washington Star.

Cleaning and Mending Streets.

Apparatus invented by a Californian for patching streets by spreading heated oil also can be used to clean all dirt from automobiles from asphalt with hot water.

PERRY'S DAUGHTER TO CHRISTEN SHIP NAMED AFTER HIM

Mrs. Edward Stafford.

Mrs. Edward Stafford, daughter of the late Admiral Robert E. Peary, was chosen to christen the ship, just completed, which was named after her father. The ship, built at Philadelphia, is a destroyer.

PEASANT SHEPHERD GAINS ENVIED FAME WITH HIS MARBLES

Paris — Paul Adolphe Dardé, awarded the coveted Paris Salon national prize for his marbles, "Faun" and "Eternal Suffering," is greeted by critics as a genius, in the real sense of that abused word. Dardé, in the simple telling of his career, stands out among artists. He was not trained in the academic way. He was a shepherd in the region of Lodeve in the wine country of southern France. Son of a small farmer, he watched a flock of sheep and worked the ground until he was 20. He fought in the war and today, famous, he is only 31.

The big, powerful, blond-bearded peasant began drawing when he was eight but felt his own way until he took a drawing course in the Lodeve high school and later studied at Montpellier, getting as he guidance in his first steps. Though the counsel of his two art teachers he came to Paris. He spent five weeks here in the government art institute and worked three days in Rodin's studio. With that slim grip of the classic school and the work of Rodin, Dardé began to work in marble and metal that made experience his teacher.

"I have no preference in schools," Dardé says. "I love nature and I beautiful in art as in life." He has been likened most closely to Rodin, but he admires first of all the work of Jean Gouffon and secondly that of Barye and Rodin of modern art.

The "Faun" is a massive, vigorous conception, sneering, cynical and sensual. "Eternal Suffering" represents a woman's head, snake-entwined, with a face upturned in anguish and almost distorted as if with physical pain.

Dardé works directly in marble without a wax or plaster model.

An EV-RE-DAY Recipe

APPLE SAUCE CAKE.
 1 1/2 cups apple sauce, 1 cup sugar, 2 cups flour, 1 cup seedless raisins, 1/2 cup Ev-Re-Day Margarine, 1 lb. hot water, 2 tsp. soda, 1 tsp. salt, 1/2 cup cloves and cinnamon. Cream sugar and Ev-Re-Day Margarine. Add applesauce, raisins and sweetened as for table use and hot water. Sift in flour, soda and salt. Add raisins, dropping them into the flour before it is stirred. This makes an elegant cake without eggs and keeps moist a long time.

Made by Wisconsin Butterine Co., Milwaukee.

CHINA PLANS GREAT WELCOME FOR YANKS

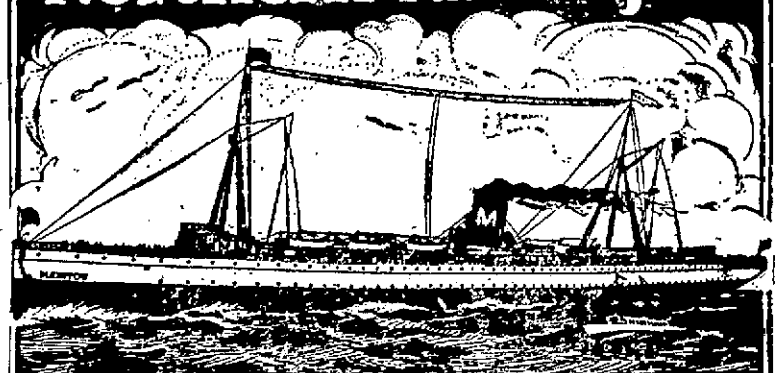

Shanghai—Plans to extend an elaborate welcome to a party of American congressmen coming to Shanghai in July are well under way in Shanghai by order of the Peking government. The view expressed in official quarters is that this visit of the congressmen affords the first opportunity for China to express its gratitude to the United States for the stand that was taken in Washington upon the Shantung question.

According to messengers received the congressional party will number 136 and will arrive in Shanghai after a stop in Hawaii the latter part of the month.

Special trains are to be placed at the disposal of the visitors through Nanking, on to Peking and Tientsin, where the members of the party will become guests of the Japanese government and will be taken on an extended sightseeing tour through Korea and later through Japan. Everywhere, banquets, receptions, excursions of various kinds, presentations and other affairs are being arranged.

Madison—Child labor permits numbering 10,418 were issued outside of Milwaukee in the last year just closed. Of this number 5,445 were regular permits, 4,368 vacation permits and 605 after school permits. Milwaukee statistics have not been compiled.

Enjoyable Lake Trips to Northern Michigan

Our two palatial Steel Steamships "Manitou" and "Puritan" in constant service during this season, supply frequent and attractive sailings between Chicago and Northern Michigan points. Tourists and owners of summer cottages will find this the quickest and most direct route to reach Northern Michigan resorts or connect with all eastern points. Dining service and food the very best. Accommodations for automobiles on S.S. "Puritan." The S.S. "Missouri" and S.S. "Illinois" operate this season between Chicago, Milwaukee and Detroit in Passenger and Express Freight Service.

The Palatial Steel S.S. "MANITOU"
 TRI-WEEKLY SAILINGS
 Between Chicago and Charlevoix, Petoskey, (Bay View), Harbor Springs and Mackinac Island—Mondays, 11:30 a. m.; Wednesdays, 2 p. m.; Fridays, 6:30 p. m.

The Palatial Steel S.S. "PURITAN"
 Regular Summer Schedule
 Leaves Chicago Mondays at 7 p. m. for Ludington (Mackinac Island, Portage Park), Frankfort, Glen Haven, Charlevoix and all Grand Traverse Bay ports. Leaves Chicago Thursdays and Saturdays 7 p. m. for Ludington, Mackinac Island, Portage Park, and Frankfort.

While the popularity of our steamers secures for them liberal patronage, there is usually room for extra passengers on every trip.

The DIARY OF AN ENGAGED GIRL

LINDSEY PLEADS FOR NANNY.

July 7.—Am quite used to my shorn locks now, and so is every one else, in fact I have had several cuttings without me. My small sister was more surprised than anyone for mother has kept her hair long for the last three years. I am glad to see that Nanny is simply pining away for long, luxurious locks, such as I was weary of. That's how life is sometimes—lopsided. Why one person doesn't want another is aching for.

Well, I did her a good turn, queer little creature that she is (for after all, Nanny is very young, and has been given for her many offenses). I went to mother and asked her to let one member of the family, at least, be conventional in their life and appearance—and as it was more than evident that I could not, or rather would not, be that one, I must be honest. Nanny was now allowed to grow long, to make up for my shortcomings!

Mother actually agreed, and with any argument at all and as for Nanny she was so effusive in her thanks to yours truly that I was mightily embarrassed. She really said, "Little Nanny, though that's just between you and me, little book—do you hear?"

Last night when I went to bed I found a red rose under my pillow, and a scrap of paper from Nanny thanking me for my goodness to her and swearing allegiance to me and mine in the future—may be what dirt I may do—or words to that effect. It was most touching.

Mother insisted that I go shopping with her this morning, and I could have a wardrobe trunk and innumerable odds and ends for the trip.

It was quite exciting but could have been much more so if I was doing same in an independent way as easy as a new bride or just on my own hook. We got the best looking trunks and all sorts of notions, which was dull work to say the least, likewise traveling bags for both

TRY THESE.
 A large coarse cloth dipped in salt and water will clean and brighten matting.

When your hands are shrunk and soft from using soda and hot water, rub them with salt and they will become smooth.

A discarded raincoat will furnish material for making an excellent bag for the swimming togs.

Fly screens are not merely a means to save annoyance; they form a quarantine against fly-borne disease.

In trying tomatoes for breakfast stir in a well beaten egg or two while cooking. It adds to the tastiness and substantiality of the dish.

Walnuts and olives choiced make a very fine filling for rye bread sandwiches when mixed with a little sour cream.

To cleanse sinks and drains pour kerosene dissolved in boiling water through them.

When the top of your silver inkstand is all covered with ink and you want to clean it, mix a little chloride of lime into a paste with water, rub the silver top smartly, and it will be brighter than ever.

CAN WITH FIRELESS COOKER.
 Do you know that you can use the fireless cooker for canning? It has at least one great advantage over the open fire in that it keeps the kitchen a much cooler place to work in, because so much less heat is used. Naturally this also means some saving in fuel and gas and a more economical process.

The usual directions for canning are observed. The jars must be well sterilized, also rubbers and caps. Sterilize by filling with cold water, placing on a rack, surrounding with water and bringing to the boiling point gradually, then boil for fifteen minutes. Remove from the water and empty, but don't wipe with a cloth.

Fill the jar with vegetables, cover with cold water and one teaspoonful of salt to each jar. Place the jar into the fireless, fill with water to the neck of the jars and place or stopper. Bring to boil slowly, then

transfer to cooler, but don't heat the radiators. Simply place the jars in the containers with jars inside the cooler.

Leave inside cooler for three hours, then remove and seal.

Different vegetables require different periods of cooking. For example, beans should be left in the cooler for three and one-half hours. Young, tender asparagus, beans, need not remain in the cooler for more than two and one-half hours.

Fruit needs comparatively little cooking. If soft berries are to be canned, boil on the stove or fifteen minutes, then leave in the fireless cooler for forty-five minutes. The harder fruits need longer treatment.

HOUSEWIVES HINTS
 Junket will not be firm if the milk gets too hot before adding the junket tablet.
 Stand a tough piece of meat in a vinegar solution over night and it will be tender.
 Cake pans should be absolutely dry before they are greased or your cake will stick.
 To clarify fat slice a raw potato into it and let the potato cook until it is light brown.
 Unless the water be drained at once from cooked vegetables, they become waterlogged.

ON THE SCENT
 "They say in some places where people are suspected of stealing whisky the prohibition agents are holding everybody up to smell their breath."
